WSP Environmental GmbH

Contact:

Declan Murray, 030 4502 6558

Dates:

2009

Extents / Investment Volume:

1 care home, 200 units

Project Description:

The task involved provision of project monitoring services during the construction phase of an old peoples home in a Bremerhaven. The home provides a modern standard with generous common areas and individual sanitary areas for residents.

RBA reviewed contract and planning documentation and commented on the suitability of the design pre-construction and during the construction phase RBA carried out regular site visits to monitor progress and quality. The developer was Marseille Clinics, a major player in the German medical services sector.

The building is located along the Geeste river, adjacent to the main shopping area and riverside amenity walk. The building is a modern design offering external terraces to the common areas and with residents' rooms located around sheltered courtyards.
